NOTES

USSR: Preparations may be under way for a meeting of the Soviet party's central committee. The US Embassy in Moscow has noted signs which suggest that such a meeting might be devoted to reforms in industrial administration. With the 1965 growing season approaching, however, it is more likely that the meeting will deal with agricultural policy. The new Soviet regime has made some changes in agricultural policy and leadership but has not yet defined a new line to replace the program discredited following Khrushchev's ouster last fall.

ANF-MLF: [The Italians have now agreed with London and Bonn that multilateral talks on an Atlantic Nuclear Force (ANF) could be held in the existing Paris MLF Working Group. The discussions will probably not begin until the Italians have talked to Prime Minister Wilson who is to visit Rome during 27-29 April. The talks in Paris seem likely to be inconclusive, since Bonn is not interested in an early decision and there is little to suggest that British views on vital ANF provisions have come any closer to firmly held Italian and German positions.]
